Vic, located in the province of Barcelona, has installed an impressive playground area made of robinia to stimulate children's imagination.
Robinia playground areas are very appreciated by lovers of natural materials, which gain value over time.
A ship, spring swings, balance elements, swings… Small children have a new area to play!

These elements are ideal for those who think that pedagogy goes beyond play, who want their children to learn the importance of nature and that imperfection is often related to authenticity, but also who wish to add an artisanal touch to their projects.
The area has been completed with Citizen and Kube Kurve benches.
