BENITO
–Playground Equipment

Navalcarnero (Spain)

Navalcarnero choose the customisation and thematisation options offered by BENITO to renovate five playground areas, thus giving added value to the final result.

Medieval Castle
JTEM01

The city council of Navalcarnero, Madrid, has made a big investment in the renovation of its playground areas by installing Benito Novatilu products.
The El Cid Park has been customised with a themed Big Tower representing a medieval castle. The tower includes games at ground level such as interactive panels in order to make the area more inclusive.
These elements allow children to live a real adventure and they are made of high-quality materials, an aluminium structure and HDPE panels.
Slides, stairs, bridges, tunnels… A lot of interactive panels, play elements and symbolic details!
Large, themed playground areas, without maintenance!
