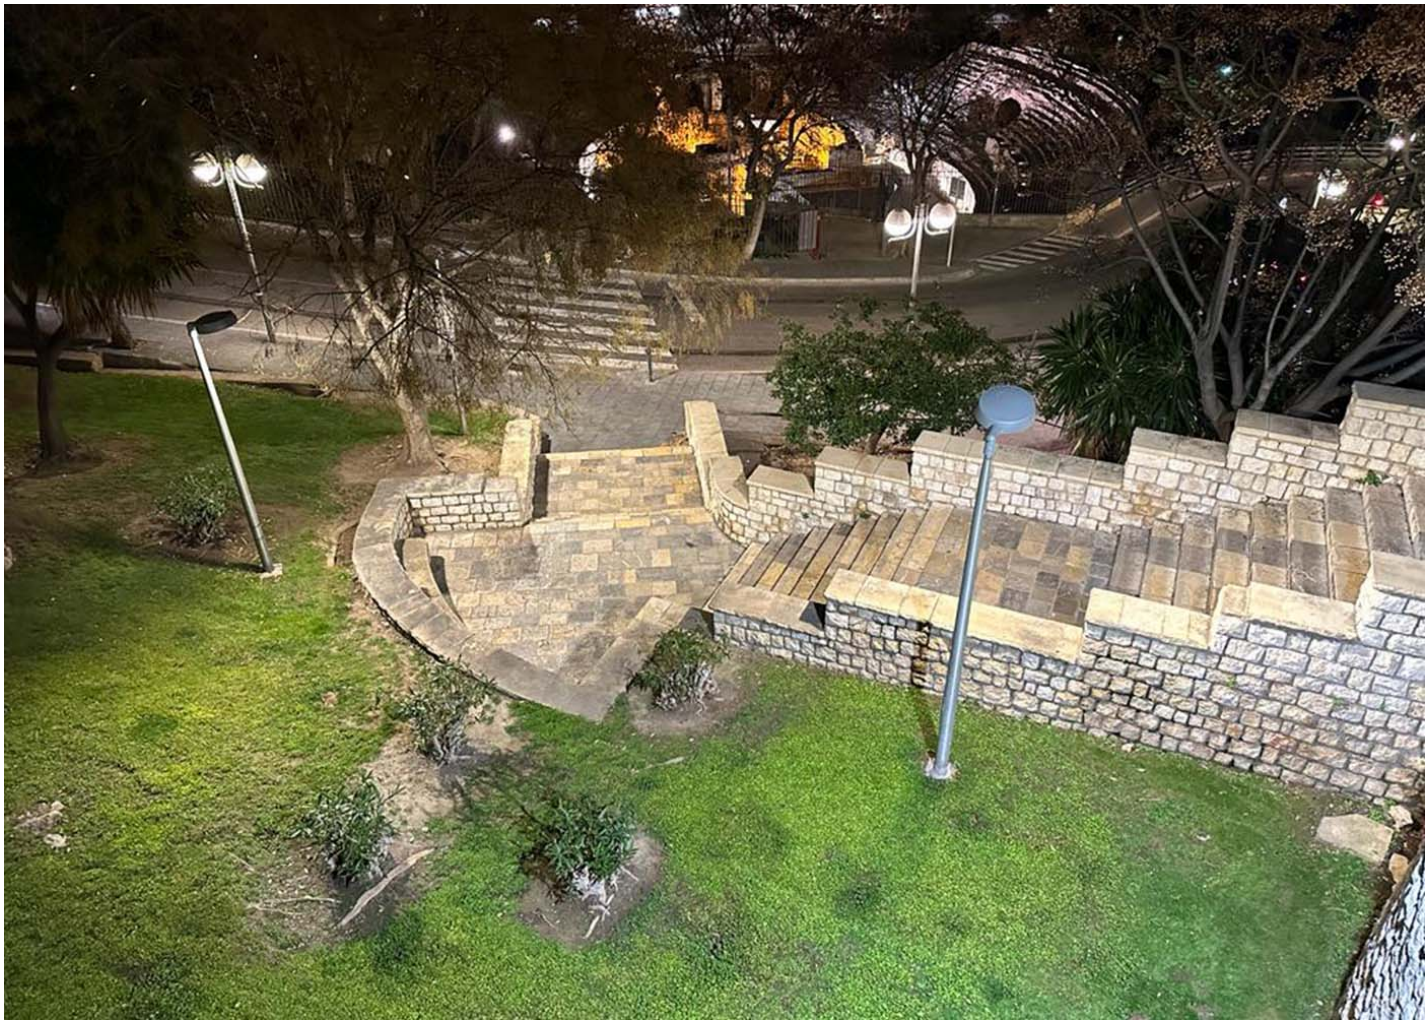
BENITO
–Street Lighting

Tarragona (Spain)

Renewed lighting in the stairs of Tarragona's amphitheatre with BENITO's Deco Horizon luminaires.



Continuing with the project of illuminating the amphitheatre of Tarragona in a more efficient way, BENITO has installed luminaires that improve the lighting on the stairs leading to the monument. The amphitheatre, along with the theater and circus, is the hallmark of any first-rate Roman city such as Tarragona, the ancient Tarraco.

Deco Horizon luminaires have been installed at different points on the stairs leading to the enclosure. This model, which belongs to the Essentials family, is elegant and functional and also incorporates perfect glare control suitable for pedestrians. With this action, the change to LED luminaires throughout the enclosure is complete.
