Need / Issue: The play areas required upgrading to provide greater variety, inclusivity, and adaptation to different age groups.
Solution: Installation of new playground equipment, safety surfacing, and boundary elements.
Result: More inclusive, safe, and attractive spaces for children's play are created.

In **Marratxí (Mallorca),** several parks have been renovated with new play areas adapted to different ages. For **children aged 6 to 12,** the design draws inspiration from the island's landscapes, using a colour palette of blues, beige, and greens that integrate with the surroundings. The area includes **the Berna Lux play structure** in blue, balancing inclusive and challenging elements to provide educational play. It is complemented **by the Polo inclusive see-saw,** ensuring accessibility for all users, and the **Nut see-saw,** expanding play options.
The space is enclosed with **Puzzle fencing** and finished with **continuous rubber surfacing installed by BENITO,** ensuring safety and comfort. A set that promotes play, inclusion, and child development in a well-designed and accessible environment.

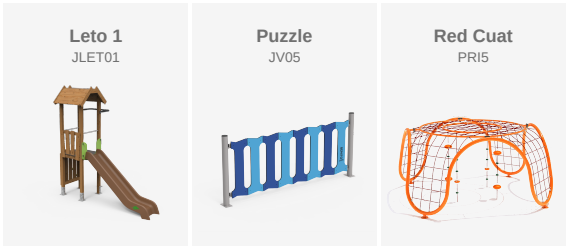
Installation of a playground at the Port of El Garraf featuring the Cuat Net, the modular play unit Leto 01, a mixed curved swing, and the Puzzle fence.



In **the port of El Garraf (Barcelona),** a modern and safe children's play area has been created to offer fun and development for the little ones. The park features the **Red Cuat,** a versatile structure that stimulates physical activity and coordination, and the modular **playset Leto 01** with a slide, promoting creative and group play.
To complete the leisure area, a **Curvo mixed swing** has been installed, allowing children of different ages, both young and older, to enjoy it. The area is enclosed by **the Puzzle fence,** painted green, which guarantees safety and adds a modern, colorful visual touch.
This project in El Garraf combines functionality, safety, and aesthetics to create an attractive and stimulating play environment for the whole community.
