Some of the projects we have done

Repton School Dubai partnered with Benito Urban to create a sustainable educational courtyard featuring shade sails, Robinia wooden modular play equipment, a climbing net, and outdoor chess tables.

Dubai (UAE)

Renovation of the playground in Almoradí, with turnkey installation of Robinia products and Kube urban furniture, creating a modern, safe, and accessible space.

Alicante (Spain)

In Alicante, they sought to develop a park that reflected values of sustainability and nature. To achieve this, they opted to use Robinia, a wood known for its sustainability and its environmental friendliness.

Repton School Dubai, one of the most prestigious British schools in Dubai, has renovated its playground with sustainable design solutions provided by **Benito Urban**. The project includes **tensile shade sails as a climate refuge**, offering shaded and comfortable areas for students throughout the year. It also features a **Robinia wooden modular play structure**, a **climbing net**, and **chess tables**, encouraging physical activity as well as cognitive and social development.
Following the standards of the **UK National Curriculum**, the new space combines functionality, safety, and natural aesthetics, creating an educational environment that promotes well-being and outdoor learning.
Through this project, **Benito Urban** reinforces its commitment to **innovation, sustainability, and quality** in school space design, delivering solutions that transform playgrounds into inspiring areas for discovery, play, and community.

In the town of Almoradí, Alicante, a turnkey renovation of the playground was carried out by Benito.

The project included the installation of various play elements made of **Robinia wood**, a durable and resistant material that ensures the safety and longevity of the installations. Among the equipment are **modular play sets, a swing, a carousel, and a seesaw**, providing a safe and fun space for children. To protect the little ones from vehicles, a wooden fence was installed.

Additionally, the ground was covered with soft rubber, reducing the risk of falls. The park also features urban furniture, such as **Volga benches**, ideal for family rest, and **Kube trash bins** with lids, promoting cleanliness and order. This renovation provides a more accessible, comfortable, and safe environment for the Almoradí community, significantly improving the quality of life in the area.

The project developed in the town of Almoradí (Alicante) opted to use **Robinia**, a wood renowned for its sustainability and resistance, to create a collection of games that would stand out for their solidity and durability. The choice of this wood not only ensures the longevity of the park's elements but also contributes to maintaining a natural and harmonious environment in the surroundings.
The collection of **Robinia** games is characterized by its seamless integration into the natural environment, thanks to a carefully designed layout that respects and enhances the beauty of the surrounding landscape. Each element blends organically with its surroundings, creating play spaces that invite exploration and enjoyment of nature.
In addition to their aesthetic appeal, **Robinia** games also offer exciting challenges for younger visitors, ranging from climbing structures to swings and slides.
As a complement to the park, **Kube litter bins** with hats and **Volga R benches** with backrests have been added, providing comfort and utility. These elements are constructed with concrete to ensure their durability.
