Need / Issue: The presence of vehicles limited pedestrian use and the quality of the urban space.
Solution: Pedestrianisation and incorporation of urban furniture and architectural lighting.
Result: A more accessible, organised environment focused on public enjoyment is created.

Portalet in Vic (Barcelona) has been renovated to become a fully pedestrian space, designed for both rest and movement of residents and visitors.
The intervention includes **ARQ benches,** a model already present in other parts of the city such as the entrance to Plaça Major, becoming a characteristic feature of Vic. Their straight, geometric and elegant design, available with and without backrests, encourages both use and integration within the historic setting.
The space is completed with the installation of an **Atlas fountain** and **INOX litter bins,** adding functionality and coherence.
Lighting plays a key role with **TOMSK luminaires** for pedestrian circulation and **Milan RGBW projectors,** which enhance the city walls on special occasions.
An intervention that returns the space to people and enhances urban heritage.

In the town of Benissoda, in the province of Valencia, a complete renovation of its squares has been carried out through a turnkey installation, utilizing elements from the Rebnew line. This project has transformed the space into a modern and welcoming place, ideal for residents to enjoy moments of rest or spend pleasant time with family and friends.
The square has been equipped **with picnic tables, benches, and waste bins from the Rebnew range**, all made from recycled materials from the yellow container, ensuring high quality and guaranteeing durability and resistance to outdoor conditions. Additionally, **an Atlas fountain** has been installed, which adds a functional touch, along with lighting from **Neovilla-Alu luminaires**, which not only provide efficient and low-consumption light but also add a modern and elegant design element to the environment.
This turnkey renovation reinforces Benissoda's commitment to improving its public spaces, creating areas that invite coexistence and enjoyment of the outdoors in a comfortable and safe environment for all.
