The citizens of Buccinasco have decided upon what a new park crossing the city should look like. The result is a leisure area with a multitude of resting points.

Citizen Eco model benches and seats have been installed in a manner that enables people to sit in a circle and chat as if they were in their own living room.

Vilavert is a small, sparsely inhabited town in the Conca de Barberà region, in Tarragona, on the banks of the river Francolí. Benches, seats and litter bins made of ReBnew have been installed there..

In addition to several classic-style Neovilla model light fixtures, very much in line with the town´s rural air.
