The **BENITO Design+** line is a new collection created by **BENITO** with the aim of redesigning and enhancing public spaces by combining design, functionality, and comfort. On this occasion, a project has been carried out in a green area of **Austria**, where various urban furniture elements from the Design+ range have been installed. The **ARTE benches** in red with steel structures bring a vibrant and contemporary touch to the landscape, while the **ARNE chairs** and **POLKA tables** in white and cream tones create a pleasant *chill-out* area.

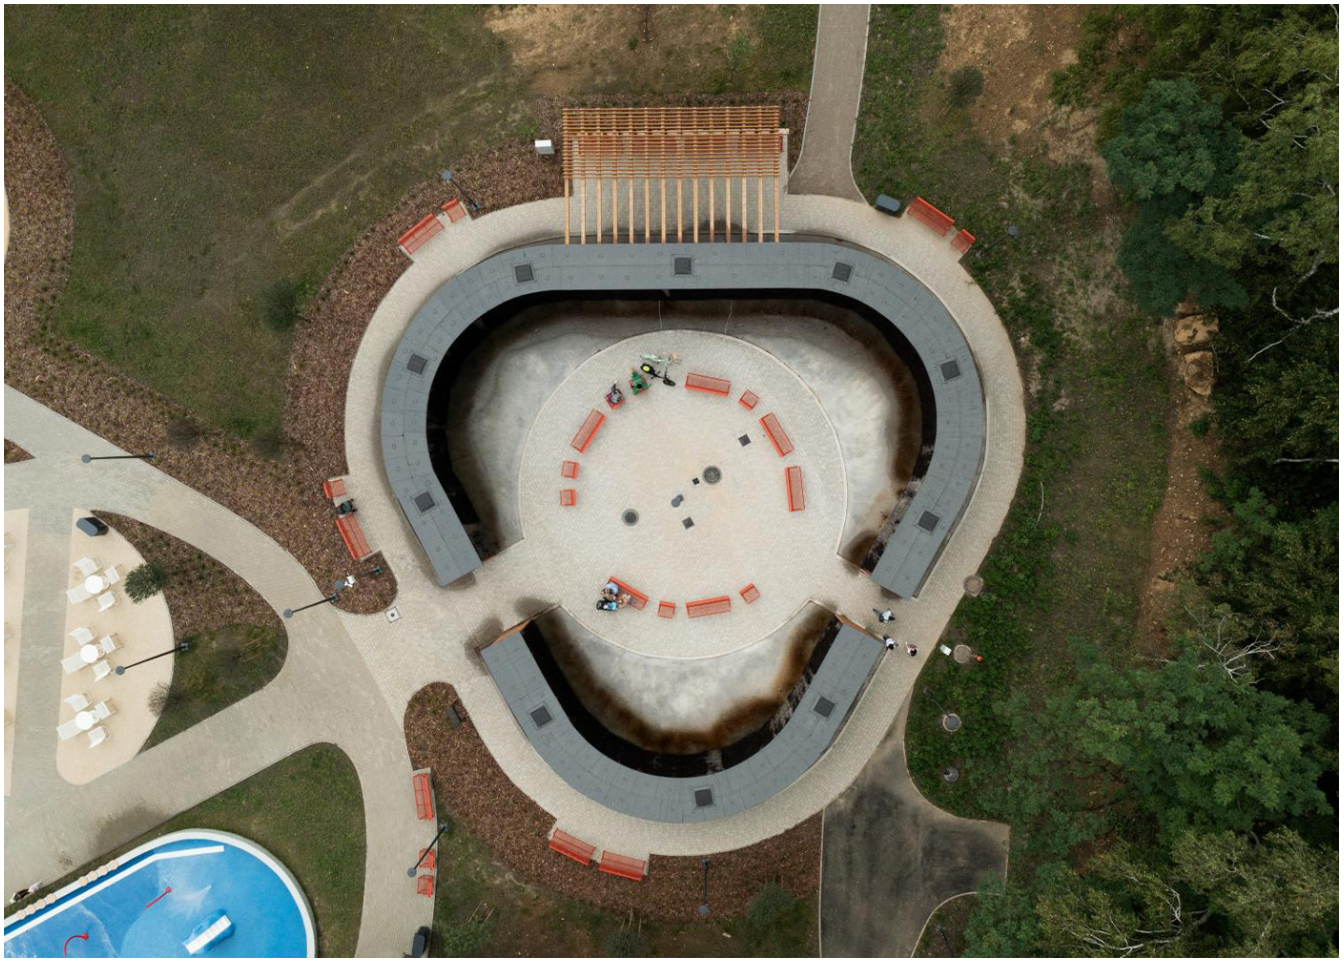

These products are ideal for creating outdoor spaces for rest, gathering, and social interaction. The combination of durable materials and modern design transforms this area into a cozy, functional, and aesthetically appealing environment, reflecting BENITO's commitment to quality, innovation, and the improvement of urban spaces.
