In the town of Los Silos, located on the eastern side of Tenerife, a public-space enhancement has been carried out in the church square, next to the historic San Sebastián Ex-Convent, a former monastic centre and a key heritage landmark of the municipality. The intervention incorporates various urban elements from the BENITO URBAN range, selected for their durability, contemporary aesthetics and seamless integration within this culturally significant environment.

Kube Plus benches and chairs have been installed, made from granite-grey concrete and finished with natural-tone hardwood slats, providing comfort and resistance to the coastal climate. The renovation is completed with low-maintenance NER planters in corten steel, adding texture and character, along with Trajana bollards designed to demarcate the square and prevent vehicle access, improving safety and preserving the pedestrian nature of the space.
