BENITO
–Playground Equipment

Casablanca (Morocco)

New children’s play area at Beverly Ville Verte, Bouskoura (Casablanca), with rubber safety surfacing and dynamic play equipment adapted to different age groups.

Need / Problem: The new residential development required a safe, attractive children's play area adapted to different age groups within the residential environment.
Solution: Installation of a complete play area with rubber safety surfacing, dynamic play equipment, modular play structures and activity zones.
Result: A colourful, functional play space that encourages play, movement and social interaction among families.
A new children's playground has been developed within **the luxury Beverly Ville Verte residential development in Bouskoura, Casablanca (Morocco).**
Located between residential buildings and shared community spaces, the playground provides a safe and convenient environment for families' daily use. The **continuous rubber safety surface, designed with distinctive shapes and colours, enhances safety while adding visual dynamism and a unique identity to the space.**
The playground features a variety of equipment designed for different age groups and play experiences, **including seesaws, spring riders, dynamic play elements, a CUAT climbing net, a pump track and a MODUS XXL modular play unit.** This combination promotes balance, coordination, climbing, movement and exploration.
The result is a complete, dynamic and contemporary play space designed to enhance community life within the development while offering children a diverse play experience in a high-quality residential environment.

Located in the west coast of the Indian subcontinent, Mumbai is the richest and most important port city in India.

These last decades, the city has experienced a lot of changes, and new residential complexes have seen the light of day, thus resulting in the creation of luxurious neighbourhoods.

One of the most important construction forms has decided to instal **playground equipment** in Malad, one of Mumbai's main residential and commercial areas. Among the chosen elements, there are several **Alu modular sets**, animal-shaped **spring swings and seesaws, swings and a Cosmic carousel.**

Thanks to the large variety of play equipment, this area is **suitable for all ages**.

The **City Council of Muel**, located in the province of Zaragoza (Aragon), contacted the Group BENITO NOVATILU to create a new playground area while preserving the history of the area where it would be installed.
The project took place near the Roman dam, location that represented a great challenge for the Group because of its historical nature.
The aim of the project was to achieve a balance between local history and the innovative playground equipment from the Group BENITO NOVATILU in order to create leisure spaces for all ages by using products that integrate to the environment.
After conducting several studies of the area and developing the technical blueprint of the park, in compliance with the current safety regulations, the **BOSCO 4**, 100% designed by the Group BENITO NOVATILU was chosen as the main element. This product consists of a multi-level tower with platforms, slides installed at different heights, vertical panels and great challenges which stimulate the strength, coordination and balance of children, in compliance with the European safety standard EN1176. Moreover, it is made with maintenance-free materials resistant to bad weather conditions and vandalism, and its design recalls tree houses, which makes it ideal for natural as well as urban environments.
Other products were also installed: **swings JL15**, **spring swings JFS10**, a **dynamic element JPV413** which includes several features such as a moving bridge, and the **swivelling element JC06**.

AEON is a 21-acre residential compound located at the West of Cairo with four apartment buildings and luxury penthouses, with their gardens, and connected by a central avenue.
For this project we were commissioned with the decorative lighting of the exteriors and equipping the community spaces with benches, litter bins, children's equipment and a training station.
The promenade continues beyond the site's boundaries leading directly to *Mall of Arabia* shopping center, owned by the same real-state company, and where BENITO also supplied furniture for its outdoor spaces.
