Need / Issue: The space required renovation to improve its use, lighting, and urban comfort.

Solution: Redevelopment of the promenade with new seating areas, lighting, and urban furniture.

Result: The quality of the space is improved, encouraging pedestrian use and longer stays.

In Manlleu (Barcelona), the Passeig del Ter has been renovated, transforming it into a more accessible, functional environment focused on public use.

The intervention includes new walking and resting areas, as well as the creation of a new square and a new street that structure the space and improve its connectivity. In terms of lighting, CICLO and TOMSK light points have been installed in L and T configurations, ensuring efficient illumination for both vehicular and pedestrian traffic.

The project is completed with the installation of **Minsk benches and Mielek litter bins in marson colour**, creating a coherent image adapted to the natural surroundings of the promenade.

An intervention that reinforces the character of the riverside space, improving its functionality and encouraging everyday use.

Comprehensive renovation of Bassot Park in Vilalba dels Arcs, featuring new robinia playground equipment, urban furniture and Vialia Lira luminaires, creating a natural, functional space for all ages.

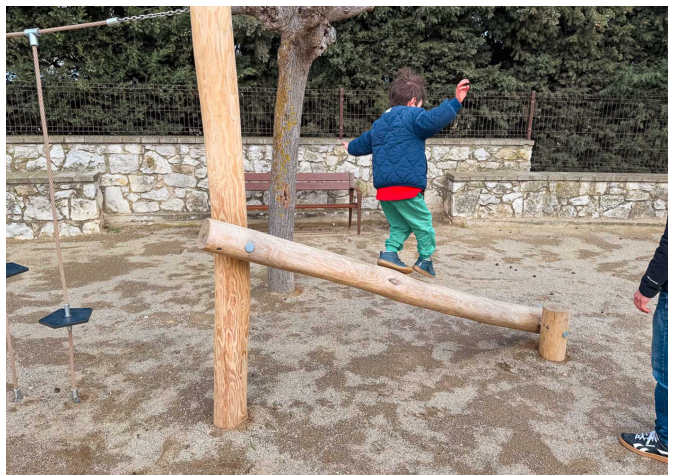

In Vilalba dels Arcs (Tarragona), a municipality of 611 inhabitants, Bassot Park has undergone a comprehensive turnkey renovation together with Benito Urban, transforming into a more functional, natural space adapted to all ages.

The new playground features robinia wood play structures, a material that enhances integration with the surroundings and reinforces the park's natural character. The play area is completed with modular games, balance elements for younger children, and spring rockers, creating a dynamic environment that encourages development and social interaction.

The project also includes seating areas for adults, with Gavarres picnic tables, Minsk benches, Salou litter bins, and Kube concrete benches, creating a comfortable setting resistant to intensive use.

The intervention is completed with the renewal of lighting through Vialia Lira luminaires, providing uniform and efficient illumination seamlessly integrated into the space. The park now guarantees safety and comfort during low-light hours, consolidating its role as a meeting point for the entire municipality.

In Prats-de-Mollo-la-Preste, France, various Play range items were installed: colorful metal fence, PINT modular unit, trampoline, and more to enhance the children's play area.

Famous for its impressive Vauban fortress and scenic mountain surroundings, **the charming village of Prats-de-Mollo-la-Preste has recently renovated its children's play area to offer a more modern, safe, and fun space.** Among the newly installed elements are the **ONE**, a modular play unit from the PINT line that promotes symbolic play and physical activity, and the **Loop 4**, a dynamic structure that encourages balance and motor coordination. A **trampoline** has also been added, ideal for active free play. The playground is enclosed by a **colorful metal fence**, adding both safety and a cheerful design. At the entrance, a **metal sign** welcomes visitors. Additionally, **Minsk urban furniture** items, such as benches and litter bins, have been installed to enhance comfort and functionality, making this area a perfect gathering point for families and locals.
