Meydan, Dubai, debuts state-of-the-art lighting with Horizon luminaires for perfect glare control.

Meydan, in Dubai, has taken a step forward in terms of lighting by introducing a state-of-the-art lighting system using Horizon luminaires to achieve perfect glare control. Horizon luminaires offer precise control over the direction and intensity of light, allowing for minimizing glare and creating perfectly illuminated environments. This lighting system has been installed in the Meydan area, providing an optimal visual experience for residents and visitors.

The implementation of these luminaires demonstrates Meydan's commitment to excellence in urban lighting, ensuring a safe and pleasant environment for everyone. Furthermore, this cutting-edge technology contributes to energy efficiency by reducing electricity consumption and minimizing environmental impact.

El Anfiteatro Romano de Tarragona es un edificio romano construido en el siglo II d. C. que actualmente forma parte del Conjunto arqueológico de Tarraco. Antiguamente, en el Anfiteatro Romano de Tarragona se realizaban espectáculos sangrientos, como luchas de gladiadores y cacerías de animales, así como ejecuciones públicas, entre ellas las de los primeros mártires cristianos.
