The Eterna waste bin, labeled as 'Anti-Seagull' model for cities

In the Raval neighborhood of Barcelona, next to the famous Boqueria market, several units of the Eterna waste bin have been installed, a waste bin with a lid that prevents seagulls from getting in to search for food scraps.

It's a highly robust model that includes a stainless steel ashtray and is easy to assemble.

AEON is a 21-acre residential compound located at the West of Cairo with four apartment buildings and luxury penthouses, with their gardens, and connected by a central avenue.

For this project we were commissioned with the decorative lighting of the exteriors and equipping the community spaces with benches, litter bins, children's equipment and a training station.

The promenade continues beyond the site's boundaries leading directly to *Mall of Arabia* shopping center, owned by the same real-state company, and where BENITO also supplied furniture for its outdoor spaces.
