Lanzarote (Spain)

New park in Playa Honda (Lanzarote) promoting active lifestyles, featuring sports areas, robinia playground equipment, a skate park, and bicycle racks, enhancing the use of public space.

In the town of Playa Honda, **on the island of Lanzarote,** a new park has been inaugurated next to the airport, designed to enhance the use of public space and promote outdoor living.
The project integrates different areas designed for all ages. It includes **fitness-oriented elements** that encourage active lifestyles, **as well as children's play areas with robinia wood structures** that blend naturally into the surroundings. In addition, the **park features a LETO modular play unit,** expanding recreational opportunities for younger users.
The intervention is completed with a large skate park area, creating a dynamic meeting point for young people and sports users.
All areas are equipped with OMEGA bike racks, facilitating sustainable access and promoting cycling.
A project that combines sport, play and urban design to create a versatile, accessible space adapted to the needs of the community.

Al Gharrafa Park is located in an area f abot 50,000 m2, which makes it a good place for visistors, residents and tourists; especially this year that Qatar is hosting the FIFA World Cup in November.
It stands out for being the **first park in the world with air conditioning**, designed for recreational activities such as walking, exercising and cycling, becoming one of the first parks with such technology and with environmental awareness as it is operated by solar panels.
The Qatari Administration aims at promoting sports and healthy living as well as providing democratic and inclusive games for all children and communities living in the city.

Pedestrian tracks with A/C which allow visitors to walk during hot summer days.
As it is a family park, we can find:
1-**Two fitness areas** equipped with gym elements (Fitness Station Area 1 and Fitness Station Area 2)
2-**Two playground areas** divided according to age groups from 2 to 5 and from 6 to 12 years old.
Gyms are equipped with fitness equipment that people can use to keep fit. Playground areas are segregated accordifng to age groups and are designed for children up to 12 years old. Children with special needs are also considered in the design of the playground areas.

Morocco has installed a **healthy circuit** to promote physical activity at a social level.

These past years, sports practice has increased and, as a result, more and more city councils have equipped cities, thus making sports accessible to everyone.

Among the main advantages of this kind of equipment, we find:

- Offering free sports practice

- Developing articular mobility, flexibility and motor coordination

- Improving strength and muscular resistance

- Avoiding sedentarism

- Maintaining or improving the users' autonomy and quality of life
