## Materials:

**Structure, Metal:** Steel S-235, AISI-304, zinc and lacquered steel.

**Panels, HDPE:** High-density polyethylene characterised by its resistance to chemical abrasives and unaffected by corrosion as it is a polymer. Due to its light, elastic nature, it offers high resistance to impact, making it very difficult to break. The uniformity of colors in both edges and sides gives it a continuous, even finish. Its synthetic base prevents the appearance of bacteria, fungus and lichen.

**Fixings:** electro galvanised and stainless steel quality 8.8 DIN267, AISI-304.

- None of the materials requires a specific treatment for its disposal.
- If the product is subject to severe use, maintenance should be increased.
- Don't use the product before the installation/maintenance is ready.
- Please check the maintenance instructions.

Biggest part (mm): / Heaviest part (kg):

**IMPACT ZONE:** security area and ground coverings according to the EN1176-1:2017 standard.

Spare parts availability: 10 years.

## Playful features:
