

Structure, Metal: Stainless steel AISI-304 posts Ø35mm. The slide surface is 2mm thick AISI304 polished stainless steel and is curved and molded in one piece.

A x B				
A=5260mm	28m ²	0.74m	8	
B=5260mm				

Materials:

Panels, HDPE: High-density polyethylene characterized by its resistance to chemical abrasives and unaffected by corrosion as it is a polymer. Due to its light, elastic nature, it offers high resistance to impact, making it very difficult to break.

Plataformas, Fenólico: Contrachapado de abedul recubierto por dos caras con una película fenólica. Superficie con relieve antideslizante ofrece agarre seguro para los niños. Con protección lateral impermeable.

Tornillería: Tornillería electro galvanizada y de acero inoxidable 8.8 DIN267, AISI-304.

- For a very severe use of the equipment should increase inspection / maintenance.
- Don't use the product before the installation/maintenance is ready.
- Please check the maintenance instructions.

The biggest part (mm): / Maximum weight of parts (kg):

IMPACT ZONE: Required security area. Ground coverings according to the norm EN1176-1:2017 are recommended.
Spare parts/replacements availability: 10 years.

Ground anchoring screws not included.
