Materials:

Structure, Metal: Ø100x3mm hot-dip galvanised steel posts. Great resistance to abrasion, corrosion and bad weather conditions.

Bars, Metal: Ø40x3mm galvanised steel bars lacquered with polyester powder coating.

Exercise Surface, Laminated wood: scandinavian laminated pine wood treated in autoclave Class IV. Finished with two layers of Lasur paint. In case of being subjected to bad weather conditions, laminated pine wood can present some tiny cracks on the surface that do not reduce its durability at all. As regards resin and knots, please note that these are part of its natural appearance.

Clamps, Metal: Cast aluminum clamps. Finished with green polyester powder coating.

Screws: Electro galvanised and stainless steel 8.8 DIN267, AISI-304 screws.

- None of the materials requires a specific treatment for its disposal.
- If the product is subject to severe use, maintenance should be increased.
- Don't use the product before the installation/maintenance is ready.
- Please check the maintenance instructions.
