Jaén has chosen to install urban furniture from the LISA concrete collection, an innovative series designed for rest, care, and beautification of the environment. This furniture is robust and durable, ensuring its long lifespan. Additionally, these furniture elements not only enhance the landscape but also invite people to stop, rest, and enjoy the surroundings. With this combination, a cozy atmosphere is created that encourages relaxation and appreciation of the beauty of the place.

The LISA planters and backless benches offer a modern and durable design, manufactured with prefabricated gray granite-colored concrete, with a weathered and hydrophobic finish. This finish prevents the surface from getting dirty and degrading due to the effects of moisture, ensuring the long life of the furniture elements.
