PIRO
UM3D90

In a new residential area of **Warsaw, the capital of Poland,** an outdoor space has been created to encourage rest, social interaction, and quality of life. **The project incorporates PIRO swivel chairs from the Benito Design+ collection, together with OKTO litter bins,** integrating naturally into a contemporary and carefully landscaped environment.
The PIRO chairs provide dynamism and comfort, allowing different positions and orientations that invite users to sit, relax, and enjoy the shared space. Meanwhile, the OKTO litter bins enhance the functionality of the ensemble, contributing to order and environmental care without compromising design.
The result is a balanced urban space where furniture not only fulfils a practical function but also helps to create welcoming, attractive places with identity, adapted to the needs of contemporary residential living.
