Tarragona (Spain)

Renovation of the Plaça de la Cinquena Promoció in Sant Pere i Sant Pau (Tarragona), featuring a new children's play area, rubber safety surfacing, ESFÉRICA planters and CICLO lighting.

Need / Problem: The square had fallen into significant disrepair and required refurbishment to improve safety, accessibility and overall urban quality.
Solution: Comprehensive redevelopment including a children's play area, pedestrian walkways, landscaped areas, planters and lighting.
Result: A renewed public space that enhances community life, play opportunities and residents' quality of life.
In the **Sant Pere i Sant Pau district of Tarragona,** the **Plaça de la Cinquena Promoció** has been completely renovated, transforming a deteriorated space into a more accessible, functional public area designed for people.
The project includes new pedestrian routes, landscaped areas and **ESFÉRICA planters** positioned alongside the pathways, bringing greenery, order and a more welcoming appearance to the urban environment.
The new children's playground features a variety of play elements for different age groups, including a **three-dimensional climbing net, the DERA slide with Liza climbing holds** used as access, **the Villa playhouse** for younger children, **the Piona seesaw and play tunnels integrated into the safety surfacing.** The entire play area is finished with continuous rubber safety surfacing, providing safety, comfort and a colourful, dynamic appearance.
The project is completed with **CICLO lighting,** improving visibility at night and encouraging safer use of the space after dark.
