Assembly of STIL shelters in front of the CAP in Platja d’Aro, Girona province, to provide comfort and shelter for those waiting for transport.

Stil
MA01

Several **STIL shelters** have recently been installed in the public space, right in front of the *Primary Care Centre* (CAP) of Platja d’Aro (Girona), with the aim of offering greater comfort to people waiting for transport or simply needing brief shelter.
Thanks to its modern design, the STIL shelter integrates seamlessly into the surroundings, providing effective protection from rain or intense heat, while also enhancing the urban image of the area.
With this initiative, the municipality is committed to creating more comfortable, accessible, and functional public spaces for residents, visitors, and public transport users.
