Famous for its impressive Vauban fortress and scenic mountain surroundings, **the charming village of Prats-de-Mollo-la-Preste has recently renovated its children's play area to offer a more modern, safe, and fun space.** Among the newly installed elements are the **ONE**, a modular play unit from the PINT line that promotes symbolic play and physical activity, and the **Loop 4**, a dynamic structure that encourages balance and motor coordination. A **trampoline** has also been added, ideal for active free play.
The playground is enclosed by a **colorful metal fence**, adding both safety and a cheerful design. At the entrance, a **metal sign** welcomes visitors. Additionally, **Minsk urban furniture** items, such as benches and litter bins, have been installed to enhance comfort and functionality, making this area a perfect gathering point for families and locals.

Pinet, a French municipality located in the Hérault department in the Occitanie region, has recently inaugurated a new space for leisure for young children.

The area, which has a surface of 150m2, becomes a new space to promote family life where children can have fun and play outdoors.

It comprises a shock-absorbing surface made with a flexible and permeable material, metallic security fences, and a VITI slide tower from BENITO's EDUCA collection for children aged three to six. This element is designed to promote healthy eating habits and includes a slide for adventurous children and another for younger children. It also has lots of interactive panels: grapes, watermelon seeds, a citrus climbing wall, an apple slide, a net…
There are other products such as the VILA house and the ZEA slide for children aged two to three, designed to promote the discovery of animals and the natural environment, as well as a three-dimensional net.

The connection of the **Camino de Ronda with the neighbourhoods of Pajaritos and La Caleta** has become a reality. The city Council has completed the regeneration and reorganisation works of the 23,000 m2 space that was occupied by the old military motoring barracks.
The area, known as Parque Automovilístico, is located in the Pajaritos neighbourhood, specifically on Alondra Street, very close to the high-speed train station. The urbanisation of this land, whoch had been abandoned for many years, has meant a significant improvement for its surroundings, since in addition to the development of the road, the project has contemplated the creation of a green area of more than 10,000 m2 as well as a **playground and fitness areas**.
