In an area of Vilafranca del Penedés, Barcelona, a renovation has been carried out to improve the space dedicated to fun and relaxation for the whole family. A CUAT net has been installed, specially designed for children's play, promoting physical activity, coordination, and group play in a safe and attractive environment.

Additionally, picnic tables from the Rebnew line have been placed, made from 100% recycled and recyclable material. To complete the space, wooden Kalahari pergolas with breathable roofs have been added, providing shade and comfort during the summer months, creating a cool and pleasant refuge.

These elements combine functionality and design, helping to create a welcoming and modern urban environment, adapted to the needs of users and promoting an active and healthy lifestyle.
