Tarragona (Spain)

Comprehensive renovation of Bassot Park in Vilalba dels Arcs, featuring new robinia playground equipment, urban furniture and Vialia Lira luminaires, creating a natural, functional space for all ages.

In **Vilalba dels Arcs (Tarragona),** a municipality of 611 inhabitants, **Bassot Park has undergone a comprehensive turnkey renovation together with Benito Urban,** transforming into a more functional, natural space adapted to all ages.
The new playground **features robinia wood play structures,** a material that enhances integration with the surroundings and reinforces the park's natural character. The play area **is completed with modular games, balance elements for younger children, and spring rockers,** creating a dynamic environment that encourages development and social interaction.
The project also **includes seating areas for adults, with Gavarres picnic tables, Minsk benches, Salou litter bins, and Kube concrete benches,** creating a comfortable setting resistant to intensive use.
The intervention is completed **with the renewal of lighting through Vialia Lira luminaires,** providing uniform and efficient illumination seamlessly integrated into the space. The park now guarantees safety and comfort during low-light hours, consolidating its role as a meeting point for the entire municipality.

In this new playground located on the **Montaña de la Breña Baja**, Tenerife, we have installed a varied range of equipment for play and relaxation. Highlights include the **LETO 03 modular play structure**, a **wooden swing with flat seat and wedge**, a **seesaw**, and a **spring rider**, all made from robinia wood, known for its durability and sustainability.
To complete the space, **Citizen ECO benches** made with **ReBnew**, our innovative recycled material with high durability, and **Rustica wooden bins** with a 90-liter capacity have been installed, designed to blend harmoniously with the natural surroundings.
The **Montaña de la Breña Baja**, located on the island of Tenerife, is a privileged natural site with stunning views of the Atlantic Ocean and native vegetation, offering a perfect environment for outdoor leisure. This project aims to provide a safe, accessible, and sustainable space where families and visitors can enjoy play and nature.

The installation of the elements for the **playground area** of Cala Domingos in Mallorca is finished. This area made of robinia wood is located in a place where people spend a nice time walking under the pines.

Playground areas made of robinia wood have become a trend since the connection with nature is increasingly gaining importance when it comes to stimulating the development of children. This area is a good example of a **playground aesthetically integrated in the environment** thanks to **natural materials such as wood and sand**.

As this equipment can be installed outdoors **without any treatment**, it represents a more sustainable alternative.

I The playground features equipment made of robinia wood, a high-quality material that requires no maintenance and adapts perfectly to the environment. This wood is known for its durability and weather resistance, making it an ideal choice for outdoor spaces. Moreover, its natural and rustic look adds a touch of elegance and harmony to the environment. The robinia wood playground equipment is safe and has been designed to stimulate the physical and mental development of children, encouraging their creativity and their ability to play together.

A unique experience in contact with nature, providing adventure and fun for the little ones. A perfect place to spend an afternoon with the family!

Vic, located in the province of Barcelona, has installed an impressive playground area made of robinia to stimulate children's imagination.
Robinia playground areas are very appreciated by lovers of natural materials, which gain value over time.
A ship, spring swings, balance elements, swings… Small children have a new area to play!

These elements are ideal for those who think that pedagogy goes beyond play, who want their children to learn the importance of nature and that imperfection is often related to authenticity, but also who wish to add an artisanal touch to their projects.
The area has been completed with Citizen and Kube Kurve benches.
