BENITO
–Playground Equipment

Casablanca (Morocco)

New children’s play area at Beverly Ville Verte, Bouskoura (Casablanca), with rubber safety surfacing and dynamic play equipment adapted to different age groups.

Need / Problem: The new residential development required a safe, attractive children's play area adapted to different age groups within the residential environment.
Solution: Installation of a complete play area with rubber safety surfacing, dynamic play equipment, modular play structures and activity zones.
Result: A colourful, functional play space that encourages play, movement and social interaction among families.
A new children's playground has been developed within **the luxury Beverly Ville Verte residential development in Bouskoura, Casablanca (Morocco).**
Located between residential buildings and shared community spaces, the playground provides a safe and convenient environment for families' daily use. The **continuous rubber safety surface, designed with distinctive shapes and colours, enhances safety while adding visual dynamism and a unique identity to the space.**
The playground features a variety of equipment designed for different age groups and play experiences, **including seesaws, spring riders, dynamic play elements, a CUAT climbing net, a pump track and a MODUS XXL modular play unit.** This combination promotes balance, coordination, climbing, movement and exploration.
The result is a complete, dynamic and contemporary play space designed to enhance community life within the development while offering children a diverse play experience in a high-quality residential environment.

In an area of Vilafranca del Penedés, Barcelona, a renovation has been carried out to improve the space dedicated to fun and relaxation for the whole family. A CUAT net has been installed, specially designed for children's play, promoting physical activity, coordination, and group play in a safe and attractive environment.

Additionally, picnic tables from the Rebnew line have been placed, made from 100% recycled and recyclable material. To complete the space, wooden Kalahari pergolas with breathable roofs have been added, providing shade and comfort during the summer months, creating a cool and pleasant refuge.

These elements combine functionality and design, helping to create a welcoming and modern urban environment, adapted to the needs of users and promoting an active and healthy lifestyle.

–Playground Equipment

Barcelona (Spain)

Installation of a playground at the Port of El Garraf featuring the Cuat Net, the modular play unit Leto 01, a mixed curved swing, and the Puzzle fence.

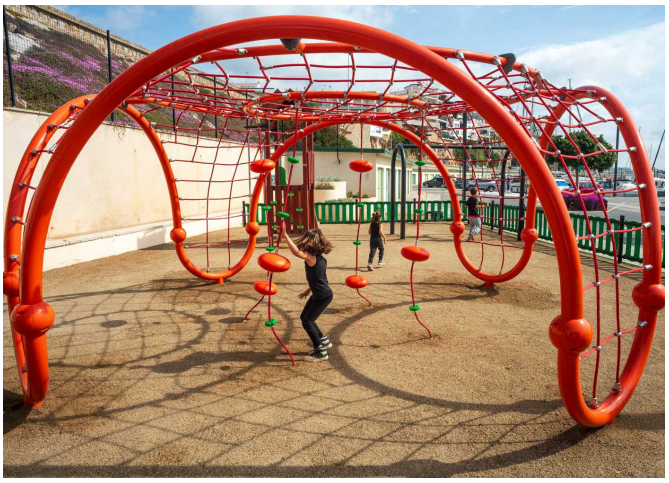

In **the port of El Garraf (Barcelona),** a modern and safe children's play area has been created to offer fun and development for the little ones. The park features the **Red Cuat,** a versatile structure that stimulates physical activity and coordination, and the modular **playset Leto 01** with a slide, promoting creative and group play.
To complete the leisure area, a **Curvo mixed swing** has been installed, allowing children of different ages, both young and older, to enjoy it. The area is enclosed by **the Puzzle fence,** painted green, which guarantees safety and adds a modern, colorful visual touch.
This project in El Garraf combines functionality, safety, and aesthetics to create an attractive and stimulating play environment for the whole community.

In Dubai (United Arab Emirates), various initiatives have been launched to promote an active and healthy outdoor lifestyle. **A wide range of sports equipment has been introduced in public spaces**, including elliptical machines, chest presses, exercise bars, rowing machines, pulleys, and more. These areas are designed for outdoor sports and physical exercise.
In order to protect users from the scorching heat that characterizes the summer months in Dubai, these spaces have been covered with **geovelas** provided by Benito Urban. These structures not only provide shade and protection against intense solar radiation, but also contribute to creating more comfortable and attractive outdoor environments for physical activity and general well-being.
In addition to these facilities for adults, a playground has also been opened as part of the **LETO collection**, accompanied by the impressive **RED CUAT structure**, spanning over 50 square meters. Furthermore, this playground is equipped with swings, seesaws, and other games for the entertainment of younger children. Like in the adult areas, geovelas are also present in the playground to protect children from the heat while they enjoy their outdoor activities.

Exciting **RED QUAT** for children's enjoyment!

Doha College in the city of Qatar has installed a playground as part of its commitment to providing a safe and enjoyable environment for families. This new space will become a gathering place for the younger residents, where they can socialize, exercise, and create unforgettable memories.

Doha College is one of the prestigious colleges in Qatar, Doha. Benito redesigned the park in coordination with EDGE Interior, which completed this project with the help of Al Attiyah Architectural Group Holding and delivered a high-quality product, where each piece of installed equipment is different and provides the surrounding area with a dynamic and colorful atmosphere. With the donation from Engineer Hamad Bin Abdulla Al Attiyah, Benito delivered the project with an excellent image of the park in the region.

Pinet (France)

Inauguration of the new playground area of Pinet, thus meeting one of the most frequent demands of the inhabitants of the area.

METALICA DE COLORES	Red Cuat	Vila	Viti	Zea
VVP034	PRI5	JEDU01	JEDU03	JEDU02
				

Pinet, a French municipality located in the Hérault department in the Occitanie region, has recently inaugurated a new space for leisure for young children.

The area, which has a surface of 150m2, becomes a new space to promote family life where children can have fun and play outdoors.

It comprises a shock-absorbing surface made with a flexible and permeable material, metallic security fences, and a VITI slide tower from BENITO's EDUCA collection for children aged three to six. This element is designed to promote healthy eating habits and includes a slide for adventurous children and another for younger children. It also has lots of interactive panels: grapes, watermelon seeds, a citrus climbing wall, an apple slide, a net…
There are other products such as the VILA house and the ZEA slide for children aged two to three, designed to promote the discovery of animals and the natural environment, as well as a three-dimensional net.
