In the port of El Garraf (Barcelona), a modern and safe children's play area has been created to offer fun and development for the little ones. The park features the **Red Cuat**, a versatile structure that stimulates physical activity and coordination, and the modular **playset Leto 01** with a slide, promoting creative and group play.

To complete the leisure area, a **Curvo mixed swing** has been installed, allowing children of different ages, both young and older, to enjoy it. The area is enclosed by **the Puzzle fence**, painted green, which guarantees safety and adds a modern, colorful visual touch.

This project in El Garraf combines functionality, safety, and aesthetics to create an attractive and stimulating play environment for the whole community.
