Torres de Segre is a town located in the county of Segrià, in the province of Lleida, 15km away from the provincial capital.

The City Council has opted for playground elements from the BENITO's **EDUCA range** for the new playground area of the town. The area includes different elements such as the Vila house, and the Pig and Vaca spring swings so that small children can learn about farm animals, and the Viti modular equipment to promote healthy eating habits among 3- to 6-year-olds.

We can also find other products such as a swing, multicoloured security fences and a rubber shock-absorbing surface.

Pinet, a French municipality located in the Hérault department in the Occitanie region, has recently inaugurated a new space for leisure for young children.

The area, which has a surface of 150m2, becomes a new space to promote family life where children can have fun and play outdoors.

It comprises a shock-absorbing surface made with a flexible and permeable material, metallic security fences, and a VITI slide tower from BENITO's EDUCA collection for children aged three to six. This element is designed to promote healthy eating habits and includes a slide for adventurous children and another for younger children. It also has lots of interactive panels: grapes, watermelon seeds, a citrus climbing wall, an apple slide, a net…
There are other products such as the VILA house and the ZEA slide for children aged two to three, designed to promote the discovery of animals and the natural environment, as well as a three-dimensional net.
