Installation of Citizen benches and chairs made of wood and cast iron in the municipality of Llers in the province of Girona.

Llers (Spain)

In Fuerteventura, the urban furniture is being renewed with Citizen benches and bins, designed by Eugeni Quillet, and recycled ReBnew elements are being incorporated, creating a sustainable and welcoming environment.

In the village of **Tuineje**, located on the island of **Fuerteventura**, a major renovation of the **urban furniture** has been carried out with the aim of improving public space for residents and tourists. All the benches in the village have been replaced with **Citizen wooden benches and chairs**, combined with **Citizen litter bins**, models designed by **Eugeni Quillet** in an elegant **Marson** color. In addition, the municipality has committed to **sustainability** by incorporating furniture made from recycled material, known as **ReBnew**. This furniture includes **Pik picnic tables** and **ROM bollards**, which are also used for traffic control in the city center. The renovation aims to create a more **modern and comfortable** environment for residents and tourists visiting the village this summer, providing a more functional and **environmentally friendly** space.

New Gea bins, entirely made of recycled polymer, have been installed in the pedestrian area of Nerja's old town.

Nerja is a fishing and agricultural city which belongs to the province of Malaga. It is located in the eastern end of the Costa del Sol, at the border with the province of Granada, and bathed by the Mediterranean Sea.

The City Council of Nerja has installed new bins in the pedestrian area of the old town. More precisely, they have installed the Gea model, made of recycled polymer recovered from urban selective collection, thus guaranteeing the circularity of the material from its origin to the end of its useful life. Attractive design, maximum functionality, resistance to UV rays, water and bad weather conditions.

Installation of Citizen benches and chairs made of wood and cast iron in the municipality of Llers in the province of Girona.

Llers is a municipality in the county of Alt Empordà, in the province of Girona, Catalonia.

Citizen benches and chairs, from the first collection of street furniture by Eugeni Quitllet, one of Spain's most internationally renowned designers, were installed. CITIZEN is a bench made with ductile iron legs treated with Ferrus, a protective process that guarantees high resistance to corrosion. This treatment consists of three layers applied after shot cleaning all impurities and an electrolytic bath, and an epoxy and polyester Marson paint coating.
