Custom-made Robinia wood playground, specially designed for the Berga Resort campsite in Berga (Barcelona)

INTROPDF##

A multidisciplinary team has created a magnificent children's playground in the grounds of the Berga Resort campsite in Berga. This campsite wanted to create a play area that would adapt to the terrain, and this has been achieved. This required earthworks, creating paths and bridges, thereby including the landscape vision. The park has been built with all kinds of robinia wood games, small mounds have been used to integrate slides and trampolines have been inserted into the ground, among other innovative features.

One part of the park is for children and the rest for adults. The park has been complemented with recycling bins made of robinia wood and benches made of the same material, creating a spectacular ensemble.
