The City Council of Mancha Real called on BENITO to create a new playground area with bright colours.

Mancha Real, a municipality with a long olive growing tradition located 19 km away from Jaén, is one of the most important industrial hubs of the province.

Recently, the municipality has decided to create new spaces where children can play and develop new abilities. To achieve this, it called on BENITO which supplied the playground equipment and paving.

The inclusive multigame elements with slides and panels are from the **Alu range**, which is characterised by its vivid colours and zero maintenance. We can also find **Julián and Barco spring swings**, designed by Mariscal, and a **Curvo swing**.

However, the element that stands out the most is, without any doubt, the rubber flooring. It has very attractive and eye-catching colours and, on top of that, this surface has also been used to add even more playability to the playground as it includes the design of a hopscotch and twister.

One of the country's biggest construction firms called on BENITO to purchase a multifunction playground area for one of Mumbai's most popular and luxurious residential areas.

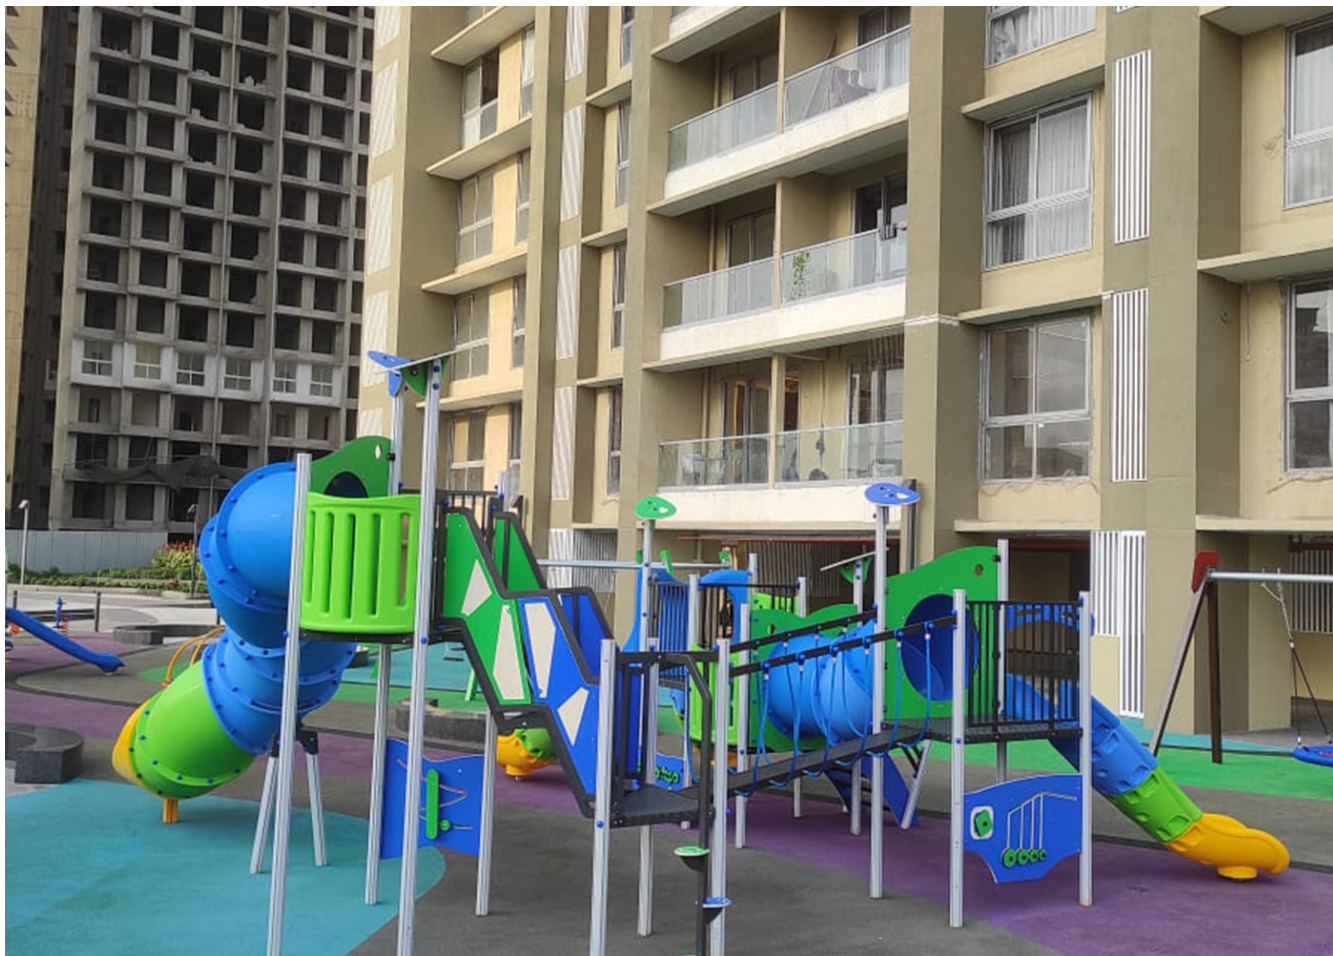

Located in the west coast of the Indian subcontinent, Mumbai is the richest and most important port city in India.

These last decades, the city has experienced a lot of changes, and new residential complexes have seen the light of day, thus resulting in the creation of luxurious neighbourhoods.

One of the most important construction forms has decided to instal **playground equipment** in Malad, one of Mumbai's main residential and commercial areas. Among the chosen elements, there are several **Alu modular sets**, animal-shaped **spring swings and seesaws**, **swings** and a **Cosmic carousel**.

Thanks to the large variety of play equipment, this area is **suitable for all ages**.

The municipality of Campdevàdol has decided to **bet on inclusivity** by creating a new playground area adapted to all children.

The element that stands out the most is the Alu 5, which includes several slides, platforms, bridges, and panels at ground zero. Moreover, this equipment presents the great advantage of **not needing any maintenance**.

Other products such as the Vila house and several spring swings have also been installed so that **children from all ages can have fun**.
