Almenara is a city of the province of Castellón in the Valencian Community. It is located between the coast and the Sierra d'Espadan, on an enormous extension of agricultural land.
The City Council of Almenara decided to build a new playground area in order to maximise enjoyment while ensuring children's safety.
The city took advantage of the implementation of the project to renew the whole area by installing maintenance-free Citizen Eco benches, 100% made of recycled and recyclable plastic, as well as Essentials light points with Deco Lira luminaires whose optimised optical design ensures a perfect glare control and an adequate cut-off for pedestrians.

AEON is a 21-acre residential compound located at the West of Cairo with four apartment buildings and luxury penthouses, with their gardens, and connected by a central avenue.
For this project we were commissioned with the decorative lighting of the exteriors and equipping the community spaces with benches, litter bins, children's equipment and a training station.
The promenade continues beyond the site's boundaries leading directly to *Mall of Arabia* shopping center, owned by the same real-state company, and where BENITO also supplied furniture for its outdoor spaces.
