

New children's play area at Beverly Ville Verte, Bouskoura (Casablanca), with rubber safety surfacing and dynamic play equipment adapted to different age groups.

Casablanca (Morocco)

Renovation of playground areas in Marratxí (Mallorca) with equipment for ages 6 to 12, inclusive elements, rubber flooring and design integrated into the environment.

Balearic Islands (Spain)

The City Council of Mancha Real called on BENITO to create a new playground area with bright colours.

Mancha Real (Spain)

The City Council of Almenara has created a new project of a playground area alongside BENITO in order to maximise the enjoyment and security of children.

Almenara (Spain)

New children's play area at Beverly Ville Verte, Bouskoura (Casablanca), with rubber safety surfacing and dynamic play equipment adapted to different age groups.

Need / Problem: The new residential development required a safe, attractive children's play area adapted to different age groups within the residential environment.

Solution: Installation of a complete play area with rubber safety surfacing, dynamic play equipment, modular play structures and activity zones.

Result: A colourful, functional play space that encourages play, movement and social interaction among families.

A new children's playground has been developed within the **luxury Beverly Ville Verte residential development in Bouskoura, Casablanca (Morocco)**.

Located between residential buildings and shared community spaces, the playground provides a safe and convenient environment for families' daily use. The **continuous rubber safety surface, designed with distinctive shapes and colours, enhances safety while adding visual dynamism and a unique identity to the space.**

The playground features a variety of equipment designed for different age groups and play experiences, **including seesaws, spring riders, dynamic play elements, a CUAT climbing net, a pump track and a MODUS XXL modular play unit.** This combination promotes balance, coordination, climbing, movement and exploration.

The result is a complete, dynamic and contemporary play space designed to enhance community life within the development while offering children a diverse play experience in a high-quality residential environment.

Need / Issue: The play areas required upgrading to provide greater variety, inclusivity, and adaptation to different age groups.

Solution: Installation of new playground equipment, safety surfacing, and boundary elements.

Result: More inclusive, safe, and attractive spaces for children's play are created.

In **Marratxí (Mallorca)**, several parks have been renovated with new play areas adapted to different ages. For **children aged 6 to 12**, the design draws inspiration from the island's landscapes, using a colour palette of blues, beige, and greens that integrate with the surroundings. The area includes **the Berna Lux play structure** in blue, balancing inclusive and challenging elements to provide educational play. It is complemented **by the Polo inclusive see-saw**, ensuring accessibility for all users, and the **Nut see-saw**, expanding play options. The space is enclosed with **Puzzle fencing** and finished with **continuous rubber surfacing installed by BENITO**, ensuring safety and comfort. A set that promotes play, inclusion, and child development in a well-designed and accessible environment.

The City Council of Mancha Real called on BENITO to create a new playground area with bright colours.

Mancha Real, a municipality with a long olive growing tradition located 19 km away from Jaén, is one of the most important industrial hubs of the province.

Recently, the municipality has decided to create new spaces where children can play and develop new abilities. To achieve this, it called on BENITO which supplied the playground equipment and paving.

The inclusive multigame elements with slides and panels are from the **Alu range**, which is characterised by its vivid colours and zero maintenance. We can also find **Julián and Barco spring swings**, designed by Mariscal, and a **Curvo swing**.

However, the element that stands out the most is, without any doubt, the rubber flooring. It has very attractive and eye-catching colours and, on top of that, this surface has also been used to add even more playability to the playground as it includes the design of a hopscotch and twister.

Almenara is a city of the province of Castellón in the Valencian Community. It is located between the coast and the Sierra d'Espadan, on an enormous extension of agricultural land.

The City Council of Almenara decided to build a new playground area in order to maximise enjoyment while ensuring children's safety. The city took advantage of the implementation of the project to renew the whole area by installing maintenance-free Citizen Eco benches, 100% made of recycled and recyclable plastic, as well as Essentials light points with Deco Lira luminaires whose optimised optical design ensures a perfect glare control and an adequate cut-off for pedestrians.
