Customized games with different models at Parque Europa in Lucena, Córdoba

INTROPDF##

Parque Europa is a family leisure space built next to a greenway and the river covering over 4.5 hectares. In two phases, different models of custom-designed playground equipment for various age groups have been installed

Standout elements include those from the large-format line and our classic springs and rockers with animal figures

The city council of Navalcarnero, Madrid, has made a big investment in the renovation of its playground areas by installing Benito Novatilu products.
The Manzanos Park has been customised with a themed Big Tower representing a pirate ship. The tower includes games at ground level such as interactive panels in order to make the area more inclusive.
These elements allow children to live a real adventure and they are made of high-quality materials, an aluminium structure and HDPE panels. Slides, stairs, bridges, tunnels… A lot of interactive panels, play elements and symbolic details!
Large, themed playground areas, without maintenance!
