Doha (Qatar)

BENITO installs 126 light points around a hotel in Doha.

Vialia Evo
ILVE

In order to provide services around the Rizos Gulf Hotel Doha, BENITO has installed 126 Vialia Evo light points with 5 meter Ter columns. They are located in an area next to the sports facilities where the World Cup was held and where an Accor Group hotel is built.

The Vialia Evo is a luminaire with a classic design that is very suitable for urban residential environments and is prepared for any remote control system.

The Ter column is made in one piece and it is designed to withstand extreme weatcher conditions. It includes a steel bracket that gives it better security.
