Granada (Spain)

Project carried out in the Pajaritos neighbourhood including a playground and a fitness area, which has resulted in a substantial improvement for the environment.

The connection of the **Camino de Ronda** with the neighbourhoods of **Pajaritos** and **La Caleta** has become a reality. The city Council has completed the regeneration and reorganisation works of the 23,000 m2 space that was occupied by the old military motoring barracks. The area, known as **Parque Automovilístico**, is located in the Pajaritos neighbourhood, specifically on Alondra Street, very close to the high-speed train station. The urbanisation of this land, which had been abandoned for many years, has meant a significant improvement for its surroundings, since in addition to the development of the road, the project has contemplated the creation of a green area of more than 10,000 m2 as well as a **playground and fitness areas**.
