El Port de la Selva (Spain)

Kube Selectif selective sorting bins have been installed on the seaport of El Port de la Selva.

Kube Selectif Green
PA672SV

El Port de la Selva is a touristic municipality located in the north of Costa Brava, near the French border.
The body of **Kube Selectif** bins is made of granite grey concrete. The lid is made of steel treated with FERRUS, which consists of an electrolytic bath after a shot cleaning, and an epoxy and polyester paint coating. The quality of the materials and finishes of this product make it ideal for seaside installations.
This model is available in several colours with one, two or three compartments for selective sorting.
