La Guingueta d'Aneu, located in a stunning natural setting in northern Catalonia, has incorporated **ReBnew picnic tables** made from 100% recycled plastic, and an **Artic playground**. This sustainable material not only reduces environmental impact but also creates a welcoming environment for families wishing to enjoy nature.
The Artic playground provides a safe and fun space where children can play freely, while the picnic tables offer comfortable spots for families to gather and share meals outdoors. This initiative promotes responsible use of resources and strengthens the sense of community and connection with nature in La Guingueta d'Aneu. It ensures a clean and inviting environment for future generations, ensuring that everyone can enjoy this beautiful natural setting.

Torres de Segre is a town located in the county of Segrià, in the province of Lleida, 15km away from the provincial capital.

The City Council has opted for playground elements from the BENITO's **EDUCA range** for the new playground area of the town. The area includes different elements such as the Vila house, and the Pig and Vaca spring swings so that small children can learn about farm animals, and the Viti modular equipment to promote healthy eating habits among 3- to 6-year-olds.

We can also find other products such as a swing, multicoloured security fences and a rubber shock-absorbing surface.

Almenara is a city of the province of Castellón in the Valencian Community. It is located between the coast and the Sierra d'Espadan, on an enormous extension of agricultural land.
The City Council of Almenara decided to build a new playground area in order to maximise enjoyment while ensuring children's safety.
The city took advantage of the implementation of the project to renew the whole area by installing maintenance-free Citizen Eco benches, 100% made of recycled and recyclable plastic, as well as Essentials light points with Deco Lira luminaires whose optimised optical design ensures a perfect glare control and an adequate cut-off for pedestrians.
