

New park in Playa Honda (Lanzarote) promoting active lifestyles, featuring sports areas, robinia playground equipment, a skate park, and bicycle racks, enhancing the use of public space.

Lanzarote (Spain)

Custom-made Robinia wood playground, specially designed for the Berga Resort campsite in Berga (Barcelona)

Barcelona (Spain)

Renovation of the playground in Almoradí, with turnkey installation of Robinia products and Kube urban furniture, creating a modern, safe, and accessible space.

Alicante (Spain)

In Alicante, they sought to develop a park that reflected values of sustainability and nature. To achieve this, they opted to use Robinia, a wood known for its sustainability and its environmental friendliness.

Alicante (Spain)

New park in Playa Honda (Lanzarote) promoting active lifestyles, featuring sports areas, robinia playground equipment, a skate park, and bicycle racks, enhancing the use of public space.

In the town of Playa Honda, **on the island of Lanzarote**, a new park has been inaugurated next to the airport, designed to enhance the use of public space and promote outdoor living.

The project integrates different areas designed for all ages. It includes **fitness-oriented elements** that encourage active lifestyles, **as well as children's play areas with robinia wood structures** that blend naturally into the surroundings. In addition, the **park features a LETO modular play unit**, expanding recreational opportunities for younger users.

The intervention is completed with a large skate park area, creating a dynamic meeting point for young people and sports users.

All areas are equipped with OMEGA bike racks, facilitating sustainable access and promoting cycling.

A project that combines sport, play and urban design to create a versatile, accessible space adapted to the needs of the community.

Custom-made Robinia wood playground, specially designed for the Berga Resort campsite in Berga (Barcelona)

A multidisciplinary team has created a magnificent children's playground in the grounds of the Berga Resort campsite in Berga. This campsite wanted to create a play area that would adapt to the terrain, and this has been achieved. This required earthworks, creating paths and bridges, thereby including the landscape vision. The park has been built with all kinds of robinia wood games, small mounds have been used to integrate slides and trampolines have been inserted into the ground, among other innovative features.

One part of the park is for children and the rest for adults. The park has been complemented with recycling bins made of robinia wood and benches made of the same material, creating a spectacular ensemble.

Renovation of the playground in Almoradí, with turnkey installation of Robinia products and Kube urban furniture, creating a modern, safe, and accessible space.

In the town of Almoradí, Alicante, a turnkey renovation of the playground was carried out by Benito.

The project included the installation of various play elements made of **Robinia wood**, a durable and resistant material that ensures the safety and longevity of the installations. Among the equipment are **modular play sets, a swing, a carousel, and a seesaw**, providing a safe and fun space for children. To protect the little ones from vehicles, a wooden fence was installed.

Additionally, the ground was covered with soft rubber, reducing the risk of falls. The park also features urban furniture, such as **Volga benches**, ideal for family rest, and **Kube trash bins** with lids, promoting cleanliness and order. This renovation provides a more accessible, comfortable, and safe environment for the Almoradí community, significantly improving the quality of life in the area.

In Alicante, they sought to develop a park that reflected values of sustainability and nature. To achieve this, they opted to use Robinia, a wood known for its sustainability and its environmental friendliness.

The project developed in the town of Almoradí (Alicante) opted to use **Robinia**, a wood renowned for its sustainability and resistance, to create a collection of games that would stand out for their solidity and durability. The choice of this wood not only ensures the longevity of the park's elements but also contributes to maintaining a natural and harmonious environment in the surroundings.

The collection of **Robinia** games is characterized by its seamless integration into the natural environment, thanks to a carefully designed layout that respects and enhances the beauty of the surrounding landscape. Each element blends organically with its surroundings, creating play spaces that invite exploration and enjoyment of nature.

In addition to their aesthetic appeal, **Robinia** games also offer exciting challenges for younger visitors, ranging from climbing structures to swings and slides.

As a complement to the park, **Kube litter bins** with hats and **Volga R benches** with backrests have been added, providing comfort and utility. These elements are constructed with concrete to ensure their durability.
