BENITO
–Playground Equipment

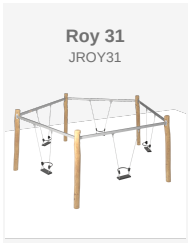

Barcelona (Spain)

Renovation of Parc del Torrent de l'Illa in El Bruc (Barcelona) with robinia playground elements integrated into the natural environment, creating a recreational and relaxation space surrounded by nature.

Need / Issue: The space required renovation to improve the play experience while maintaining integration with the natural landscape.
Solution: Installation of new play and rest elements made from robinia wood.
Result: A more natural, attractive park adapted to family use is created.
In **El Bruc,** a municipality of approximately 2,000 inhabitants located in a privileged natural setting at the foot of Montserrat, in the province of Barcelona, the Parc del Torrent de l'Illa playground has been renovated.
The intervention focuses **on elements made from robinia wood,** a material especially suitable for outdoor use due to its durability and its ability to integrate visually into natural environments.
The park includes **a relaxation hammock, a round swing with five seats, a balance circuit and a climbing structure,** offering different play experiences adapted to various age groups.
The project reinforces the natural character of the space and transforms the park into a family meeting point where play, relaxation and nature coexist in balance.

–Playground Equipment

Lanzarote (Spain)

New park in Playa Honda (Lanzarote) promoting active lifestyles, featuring sports areas, robinia playground equipment, a skate park, and bicycle racks, enhancing the use of public space.

In the town of Playa Honda, **on the island of Lanzarote,** a new park has been inaugurated next to the airport, designed to enhance the use of public space and promote outdoor living.
The project integrates different areas designed for all ages. It includes **fitness-oriented elements** that encourage active lifestyles, **as well as children's play areas with robinia wood structures** that blend naturally into the surroundings. In addition, the **park features a LETO modular play unit,** expanding recreational opportunities for younger users.
The intervention is completed with a large skate park area, creating a dynamic meeting point for young people and sports users.
All areas are equipped with OMEGA bike racks, facilitating sustainable access and promoting cycling.
A project that combines sport, play and urban design to create a versatile, accessible space adapted to the needs of the community.

–Site Furnishing

Tarragona (Spain)

Comprehensive renovation of Bassot Park in Vilalba dels Arcs, featuring new robinia playground equipment, urban furniture and Vialia Lira luminaires, creating a natural, functional space for all ages.

In **Vilalba dels Arcs (Tarragona),** a municipality of 611 inhabitants, **Bassot Park has undergone a comprehensive turnkey renovation together with Benito Urban,** transforming into a more functional, natural space adapted to all ages.
The new playground **features robinia wood play structures,** a material that enhances integration with the surroundings and reinforces the park's natural character. The play area **is completed with modular games, balance elements for younger children, and spring rockers,** creating a dynamic environment that encourages development and social interaction.
The project also **includes seating areas for adults, with Gavarres picnic tables, Minsk benches, Salou litter bins, and Kube concrete benches,** creating a comfortable setting resistant to intensive use.
The intervention is completed **with the renewal of lighting through Vialia Lira luminaires,** providing uniform and efficient illumination seamlessly integrated into the space. The park now guarantees safety and comfort during low-light hours, consolidating its role as a meeting point for the entire municipality.
