BIKI
VBE01

The Valladolid city council has relied on BENITO's know-how to install a secure parking facility for bicycles in the underground car park in the main square.

The result is a transparent box operated through a mobile application, also developed by BENITO..

BENITO street furniture in the new retail park Los Patios de Azahara in Córdoba.

The constant improvement and evolution of our products may result in some modifications of the technical specifications and characteristics of the products without prior notice.

The new retail park Los Patios de Azahara in Córdoba now has **BENITO street furniture**, more precisely Ela Mad benches and Lisa chairs. These models stand out for their minimalist and architectural design, and are made of precast textured granite grey concrete.

It also has Eterna bins made of 4mm thick high density polyethylene, textured forge black finish. This product is resistant to UV rays, chemical agents and impacts, and includes a stainless steel cigarette stubber. Finally, Arvelo bike racks and Husky fountains with two taps, one of which is adapted for dogs, have been installed.
