In Les Masies de Voltregà, in the province of Barcelona, the weekly market area has been renovated with the **installation of new urban elements** that promote community living, sustainability, and shared enjoyment.

Among them are the **DARA litter bins, in olive green,** also available in marson, grey, and burgundy. This model has a capacity of 100 litres and incorporates a ashtray and cover, offering both functionality and design in a single product.
Picnic tables Gavarres have also been installed, made of pine wood and reinforced with iron on one side, ensuring strength and durability in daily use.

The area is completed with a **robinia children's playground** featuring a wide range of equipment: **two slides installed on the slope, spring riders, swings, sand play, and balance games**, creating an ideal environment for family and community leisure.

Custom-made Robinia wood playground, specially designed for the Berga Resort campsite in Berga (Barcelona)

INTROPDF##

A multidisciplinary team has created a magnificent children's playground in the grounds of the Berga Resort campsite in Berga. This campsite wanted to create a play area that would adapt to the terrain, and this has been achieved. This required earthworks, creating paths and bridges, thereby including the landscape vision. The park has been built with all kinds of robinia wood games, small mounds have been used to integrate slides and trampolines have been inserted into the ground, among other innovative features.

One part of the park is for children and the rest for adults. The park has been complemented with recycling bins made of robinia wood and benches made of the same material, creating a spectacular ensemble.
