We have developed a major children's play area project in the town of Aljaraque (Huelva), creating a vibrant, colorful, and fun urban space for young children. This project includes two playgrounds designed for different age groups: one for children under 6 years old and another for those aged 6 to 12, promoting safe and age-appropriate play.

Both areas are equipped with various play elements from Benito Urban's MODUS range, including a MODUS L and XXL modular play structure, a COSMIC carousel, a mixed curved swing, a climbing element, a square trampoline, and colored cast benches that complete the space. The use of multicolored shock-absorbing flooring and decorative fencing transforms this site into a joyful and safe environment, perfectly integrated into the urban fabric of Aljaraque.

AEON is a 21-acre residential compound located at the West of Cairo with four apartment buildings and luxury penthouses, with their gardens, and connected by a central avenue.

For this project we were commissioned with the decorative lighting of the exteriors and equipping the community spaces with benches, litter bins, children's equipment and a training station.

The promenade continues beyond the site's boundaries leading directly to *Mall of Arabia* shopping center, owned by the same real-state company, and where BENITO also supplied furniture for its outdoor spaces.
