Some of the projects we have done

Benito's Neovilla-Alu luminaires, suitable for both indoor and outdoor use, have been installed at the Tel Aviv-Hashalom station, one of the busiest in Israel.

Tel Avivi-Hashalom (Israel)

Turnkey installation in the province of Valencia with Rebnew elements and Neovilla-Alu luminaires, designed to promote the rest and well-being of citizens in urban spaces.

Valencia (Spain)

Design of two very different atmospheres with BENITO products: concrete furniture to bring modernity to the riverside and elements with classic lines for a park.

Slovenia

Israel is implementing an ambitious plan to replace all its lighting with LED technology in **62 train and metro stations across the country,** from north to south, with the aim of improving energy efficiency and safety. The selected models include **Neo-Villa, Citizen, and Elium luminaires.** This change covers both outdoor areas as well as the platforms and interiors of the stations, providing a white light that improves the perception of safety compared to the yellow light previously used (see before and after photo).

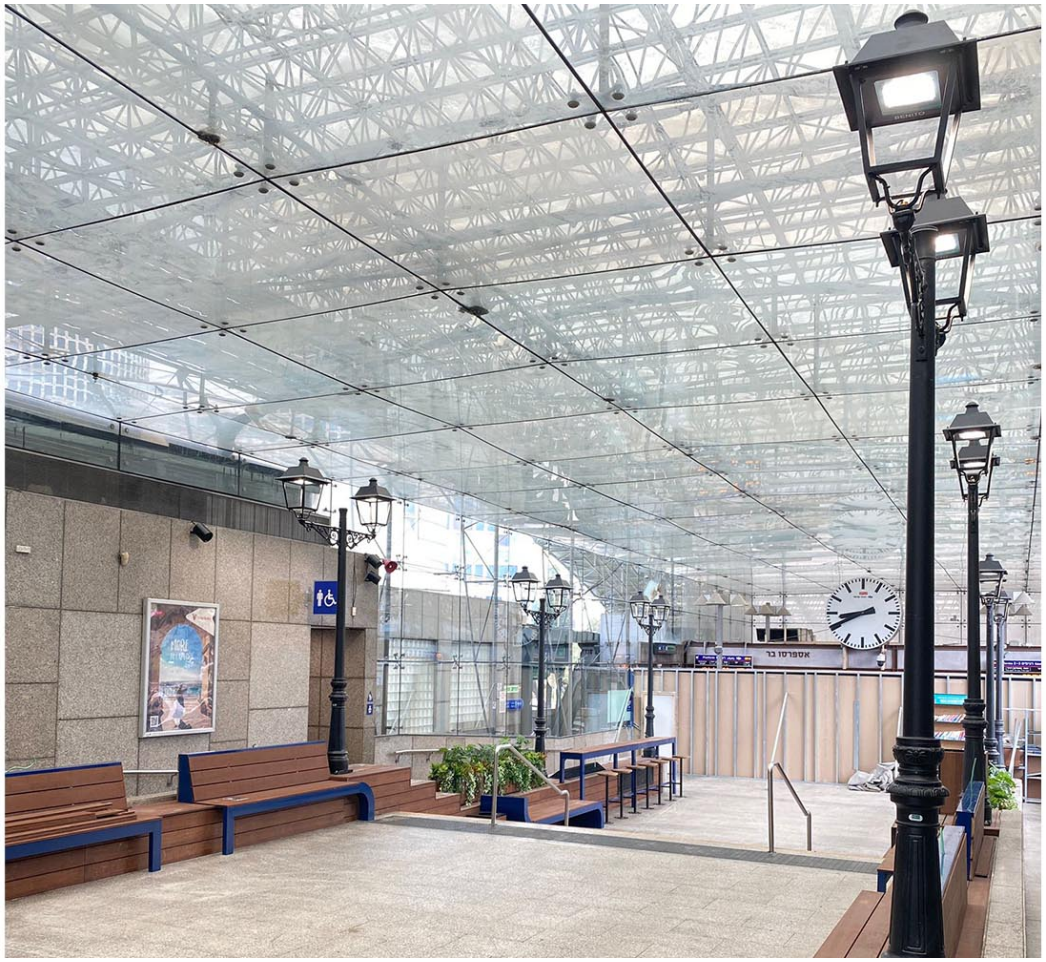

The photos show the interior of one **of the busiest stations in Tel-Aviv,** where the luminaires were integrated with the existing design and furniture. For the interior, **the Villa luminaires and Neo-Villa columns were chosen,** while in areas where columns could not be installed, **Comprodon arms were used,** achieving perfect integration without obstructing the passage.

In the town of Benissoda, in the province of Valencia, a complete renovation of its squares has been carried out through a turnkey installation, utilizing elements from the Rebnew line. This project has transformed the space into a modern and welcoming place, ideal for residents to enjoy moments of rest or spend pleasant time with family and friends.
The square has been equipped **with picnic tables, benches, and waste bins from the Rebnew range**, all made from recycled materials from the yellow container, ensuring high quality and guaranteeing durability and resistance to outdoor conditions. Additionally, **an Atlas fountain** has been installed, which adds a functional touch, along with lighting from **Neovilla-Alu luminaires**, which not only provide efficient and low-consumption light but also add a modern and elegant design element to the environment.
This turnkey renovation reinforces Benissoda's commitment to improving its public spaces, creating areas that invite coexistence and enjoyment of the outdoors in a comfortable and safe environment for all.
