Some of the projects we have done

The Urban and Light project in northern Italy includes the installation of Citizen luminaires, Lis beacons, and Titan bins, creating a welcoming and modern atmosphere that revitalizes the town’s environment.

In the picturesque town of Cossato, located between Turin and Milan, a remarkable renovation has taken place in the central square. This renovation project introduced **new Citizen luminaires, Lis beacons, and Titan bins from Benito Urban,** transforming the space into a more modern and welcoming place. **The Citizen luminaires and Lis beacons,** featuring an elegant black finish, add a touch of contemporary design to the environment, **while the Titan litter bins,** equipped with a lid and integrated ashtray, combine functionality with aesthetics.

The result is an ideal space to relax and enjoy a stroll, providing a pleasant atmosphere for both residents and visitors.

The project photographs were taken by Geiem.
