Ø32mm protective bars made of AISI 304 stainless steel.<br><br>Data Sheet Acreditative Letter |
| JROK02<br> | **Roko 2**<br>Bouldering is a form of climbing that consists of climbing small walls, without the need for protective materials such as ropes or harnesses. With the ROKO modular elements we managed to turn this sport into a game and bring it to urban spaces. This line, characterised by its giant geometric shapes, is produced with high-quality materials that provide socialisation and climbing spaces for older children and teenagers. A game option with different levels of height to find different challenges depending on one's skills.<br><br>Data Sheet JROK02 Certificate |
