BENITO
–Playground Equipment

Casablanca (Morocco)

New children’s play area at Beverly Ville Verte, Bouskoura (Casablanca), with rubber safety surfacing and dynamic play equipment adapted to different age groups.

Need / Problem: The new residential development required a safe, attractive children's play area adapted to different age groups within the residential environment.
Solution: Installation of a complete play area with rubber safety surfacing, dynamic play equipment, modular play structures and activity zones.
Result: A colourful, functional play space that encourages play, movement and social interaction among families.
A new children's playground has been developed within **the luxury Beverly Ville Verte residential development in Bouskoura, Casablanca (Morocco).**
Located between residential buildings and shared community spaces, the playground provides a safe and convenient environment for families' daily use. The **continuous rubber safety surface, designed with distinctive shapes and colours, enhances safety while adding visual dynamism and a unique identity to the space.**
The playground features a variety of equipment designed for different age groups and play experiences, **including seesaws, spring riders, dynamic play elements, a CUAT climbing net, a pump track and a MODUS XXL modular play unit.** This combination promotes balance, coordination, climbing, movement and exploration.
The result is a complete, dynamic and contemporary play space designed to enhance community life within the development while offering children a diverse play experience in a high-quality residential environment.

We have developed a major children’s play area project in the town of Aljaraque (Huelva), creating a vibrant, colorful, and fun urban space for young children. This project includes two playgrounds designed for different age groups: one for children under 6 years old and another for those aged 6 to 12, promoting safe and age-appropriate play.
Both areas are equipped with various play elements from Benito Urban’s MODUS range, including a MODUS L and XXL modular play structure, a COSMIC carousel, a mixed curved swing, a climbing element, a square trampoline, and colored cast benches that complete the space.
The use of multicolored shock-absorbing flooring and decorative fencing transforms this site into a joyful and safe environment, perfectly integrated into the urban fabric of Aljaraque.
