Tarragona (Spain)

Comprehensive renovation of Bassot Park in Vilalba dels Arcs, featuring new robinia playground equipment, urban furniture and Vialia Lira luminaires, creating a natural, functional space for all ages.

In Vilalba dels Arcs (Tarragona), a municipality of 611 inhabitants, Bassot Park has undergone a comprehensive turnkey renovation together with Benito Urban, transforming into a more functional, natural space adapted to all ages.

The new playground features robinia wood play structures, a material that enhances integration with the surroundings and reinforces the park's natural character. The play area is completed with modular games, balance elements for younger children, and spring rockers, creating a dynamic environment that encourages development and social interaction.

The project also includes seating areas for adults, with Gavarres picnic tables, Minsk benches, Salou litter bins, and Kube concrete benches, creating a comfortable setting resistant to intensive use.

The intervention is completed with the renewal of lighting through Vialia Lira luminaires, providing uniform and efficient illumination seamlessly integrated into the space. The park now guarantees safety and comfort during low-light hours, consolidating its role as a meeting point for the entire municipality.
