In this new play area, located in a residential zone of Vilafranca del Penedès, in the province of Barcelona, a comprehensive intervention has been carried out with the aim of offering a safe, attractive, and functional space for children and their families. Among the installed elements are the Piona seesaw, the modular play structure Klasik 5, which allows for multiple activities and encourages group play, and a wooden nest swing, perfect for enjoying both individually or in a group.

The area is complemented by urban furniture that enhances both the design and functionality of the surroundings. Tomsk bollards have been installed for efficient and safe lighting, PETRUS planters that bring greenery into the urban space, and Kube and Kube Plus benches that combine comfort with a contemporary aesthetic. Altogether, this contributes to creating a welcoming, accessible space adapted to the needs of its users.

The renovation of the **Parque de las Naciones in Torrevieja, Alicante**, has transformed this public space into a more accessible and attractive environment, especially for younger children. With the goal of optimizing the outdoor experience, **new modular play equipment, spring toys, rocking horses, and swings have been installed**, designed to meet the varying ages and needs of children. These play elements encourage physical activity and enjoyment, offering a fun and safe experience.

In addition, visitor comfort has been a priority, especially during the intense summer heat in the region. To address this, **shaded areas in rectangular and triangular shapes have been added**, providing relief from the sun and creating pleasant spaces for families. The landscape design has also been updated, with more green spaces and rest areas, making the park an ideal place for recreation and social gatherings in a natural setting.

New playground area in the Chana neighbourhood in Granada. This area includes an impressive and colourful surface.

The park becomes a new space to promote family life: the children of the surroundings and all who want can have fun and play outdoors with their parents, grand-parents and friends.

Accessible park which complies with the specifications of playground security regulations; includes play elements adapted to all children.

It comprises a shock-absorbing surface made with a flexible and permeable material, security fences, and a themed element which consists of two platforms connected with a bridge, two towers, climbing nets, stairs, climbing walls and a slide.

The municipality of Rubí, located between Terrassa and Sant Cugat del Vallès, has created a new playground area.

The City Council opted for the **Klasik 5 modular set** with two slides united by a bridge, the **Piona double seesaw** and several swings among which we can find one with a **Nest inclusive seat**.

Barcino benches were also installed for adults to take a break while children are playing.
