The renovation of the **Parque de las Naciones in Torrevieja, Alicante,** has transformed this public space into a more accessible and attractive environment, especially for younger children. With the goal of optimizing the outdoor experience, **new modular play equipment, spring toys, rocking horses, and swings have been installed,** designed to meet the varying ages and needs of children. These play elements encourage physical activity and enjoyment, offering a fun and safe experience.

In addition, visitor comfort has been a priority, especially during the intense summer heat in the region. To address this, **shaded areas in rectangular and triangular shapes have been added,** providing relief from the sun and creating pleasant spaces for families. The landscape design has also been updated, with more green spaces and rest areas, making the park an ideal place for recreation and social gatherings in a natural setting.

The **Bassegoda Park** family campsite, located in Albanyà, has installed a new playground area with BENITO equipment from the **EDUCA range**, a collection designed to improve the physical, cognitive, creative and socioemotional skills of small children. Apart from these products, diverse multifunctional play elements, a structure-slide and seesaws have been installed.
A play and learning area full of imagination and colour, never forgetting safety so that children can have fun without any risk.
