maintenance

Regulations and certifications:

Eco-friendly A50 Tree Grate , total dimensions (length x width x height) 39.37x39.37x2.36", made of ReBnew plastic (BENITO's recycled polymer produced entirely from yellow bin packaging and requiring no maintenance). Free of pollutants. Allows grass to grow. Modular, adaptable to any shape. Designed to be flush with ground level.

Materials & Finishes:

ReBnew: 100% recycled polymer, sturdy and durable, derived from urban, industrial, and domestic waste... It is weather-resistant, resistant to oils, acids, and seawater. It does not splinter or crack, nor does it rot or dry out.

Irregular surface finish makes the board extremely durable as it effectively hides scratches caused by vandalism. Nevertheless, surface scratches can be repaired to restore it to a like-new condition.

AWARDED WITH "DER BLAUE ENGEL": Product with low environmental impact throughout its lifecycle. It is awarded to products that meet criteria for reducing environmental impact in manufacturing, recycling, packaging, use, emissions, collection, and disposal. In addition to environmental criteria, it includes quality, safety, energy consumption, and other considerations. It is one of the most prestigious labels globally.
